

HEAT TREATMENT *PREPARATION CHECKLIST*

For a successful treatment, please follow these instructions to prepare your house or apartment.

1. Remove all living things: Pets, fish, birds and houseplants.
2. Clean your home thoroughly, vacuum all diatomaceous earth, if present. Contact us if you used pesticides less than 3 weeks ago.
3. All clothes can remain hanging in your closets.
4. Arrange items loosely in drawers so that the hot air can circulate between them.
5. All electronics can remain, no need to remove.
6. Remove all linens from the beds and place in garbage bags and leave them in the room to be heated. After treatment, please wash and dry the linens before placing them back onto the bed.
7. Remove certain antiques, oil paintings and certain musical instruments.
8. Place chocolate, candy, lipstick and any waxy makeup, crayons and carbonated drinks in the fridge.
9. Secure all loose papers.
10. Put aerosol cans, pressurized cans, hairsprays, spray on deodorants, spray paints and aerosol cleaning products and place in a box marked **DO NOT HEAT**.
11. Remove any firearms and ammunition.
12. Remove all drugs, medications and cosmetics.
13. After the heat treatment is complete, it is very important to change the clothes that you wore for the day before entering the treated unit. Ensure to wash and dry the used clothes as soon as possible.

***Please remember that your cooperation is very important for a successful
treatment!
Thank you***
